

FRAG OUT FRIDAY NIGHTS

Worlds first Call of Duty: Warzone ranked league! We will be following the DYNASTY scoring system. Kills, Damage done, contracts, and placement will all play a factor on who rises to the top of the leader board and gets promoted to the next division at the end of the 6 week season.

Basic Info:

Call of Duty Game Mode	Warzone Trios
Prize Pool Size*	Progressive
Number of winners	Five
K/D Requirement**	1.5 - 11
Number of weekly Matches***	8
League Night Time	12 Hours

* Progressive prize pool means that the prize pool grows as more people register.

** K/D is team base total. Our automated system will do the math and if you do not meet the requirements we may require proof of game footage. This is mostly to limit new accounts that may be associated with cheats as well keep A list gamers from coming in and running lobbies.

*** Only your top 8 matches during the length of the league game night can be counted towards your overall score for that week. You will have 12 hours to compete and record your top 8 scores. You are not required to play the full 12 hours.

Registration:

All squad members must have purchased a league pass before entering any league night event. If our system does not have your activision ID entered into the system then we will not be able to verify your scores which can result in a low point score and low ranking within the league table.

Applications must have: team name, first/last name and your activision ID so that our system can do the rest of the heavy lifting.

*** This will always be a players platform so once we get a couple months into the league ladders we will start to asses and take polls on:

of preseason or breaks you guys want per season.

of weeks you want the leagues to run, we can shorten preseason and increase league play or remove preseason all together or shorten it to a week etc.

Squad Rules:

We know life happens so for league events you are allowed to roster 1 extra player. They must have a league pass and filled out a player registration form prior to the league night event. All basic rules will apply.

Please DO NOT try to work the system by running 4 players in quads or any other game mode. our system alerts us when a team enters into any other game mode lobby then the designated event mode. We will take immediate action that will most likely result in a life time ban of the platform if we find you are in violation.

League Night Stream Requirements:

One person from every team is required to stream the game with "archive mode" turned ON This allows us to look at POV should any issues come about.

The stream title must contain #hypegamer. This helps our software quickly locate streamers to boost on our GAME ZONE platform.

Streaming platforms we allow:

Facebook Gaming

YouTube

Mixer*

Twitch

*With mixer closing we know this is a tough time for streamers so if you are coming from mixer let us know what we can do to help you out!

League Night Scoring System

In Dynasty mode you can earn points in numerous ways.

Kills = 1 point

Placement:

Top 50: 1 point
