

SUNDAY SOLO LEAGUE NIGHTS

Worlds first Call of Duty: Warzone ranked league! We will be following the DAMAGE MASTER scoring system. Kills, Damage done, and placement will all play a factor on who rises to the top of the leader board and gets promoted to the next division at the end of the 6 week season.

Basic Info:

Call of Duty Game Mode	Warzone Solo
------------------------	--------------

Prize Pool Size*	Progressive
Number of winners	Five
K/D Requirement**	.5 - 3.5
Number of weekly Matches***	8
League Night Time	12 Hours

* Progressive prize pool means that the prize pool grows as more people register.

** K/D is team base total. Our automated system will do the math and if you do not meet the requirements we may require proof of game footage. This is mostly to limit new accounts that may be associated with cheats as well keep A list gamers from coming in and running lobbies.

*** Only your top 8 matches during the length of the league game night can be counted towards your overall score for that week. You will have 12 hours to compete and record your top 8 scores. You are not required to play the full 12 hours.

Registration:

All members must have purchased a league pass before entering any league night event. If our system does not have your activision ID entered into the system then we will not be able to verify your scores which can result in a low point score and low ranking within the league table.

Applications must have: team name, first/last name and your activision ID so that our system can do the rest of the heavy lifting.
